14th September 2023**

ORGANIZED BY

**Department of Community Medicine, BLDE(Deemed to be University)
Shri.B.M.Patil Medical College, Hospital & Research Centre, Vijayapura**

The participants will be awarded Credit Points, as per Karnataka Medical Council guidelines.

Dear Friends

The Department of Community Medicine, BLDE(DU) Shri. B. M. Patil Medical College, Hospital & Research Centre, Vijayapura is delighted to invite you for the 3rd state conference of the Indian Association of Preventive & Social Medicine, Karnataka State Chapter on 15th & 16th September 2023 on the Theme 'Environment & Health: Equitize, Empower, Educate – A step towards attaining SDGs' preceded by a Pre-conference CME on "Scaling Up Health Care Using Digital Health" on 14th September 2023. We cordially welcome you to these events & look forward to your participation and support.

ABOUT HOST

Vijayapura, the city of victory was established in the 10th– 11th centuries by the Kalyani Chalukyas as the mark of their valor and success. This Heritage city has world-famous monuments like Gol-Gumbaz, Ibrahim Roza, and Bara Kamaan among others, and is also the abode of the Late His Holiness Siddeshwar Swamiji.

BLDEA (Bijapur Lingayat District Educational Association) is a pioneer educational institution in North Karnataka with 112 years old legacy. Amongst all its educational endeavors, **BLDE (Deemed to be University)**, a jewel in its crown, is one of the reputed Medical Universities in Karnataka. It was established in 2008 and has been accredited "A" Grade by NAAC(2 Cycle) and ranks in the 100 – 150 band by NIRF.

The **Department of Community Medicine** with passionate, multifaceted, and research-oriented faculty is involved in the planning, implementation, monitoring, and evaluation of health programs and activities in the local community.

ABOUT THE PRE-CONFERENCE CME – ‘SCALING UP HEALTH CARE USING DIGITAL HEALTH’

Over the last few decades, healthcare delivery has undergone a massive transition. Digital health has had a significant impact on health systems by enabling new models of healthcare and shifting the focus to patient-centric care. Despite digital health gaining momentum in clinical practice, it remains poorly understood by many public health professionals. To ensure that future physicians can work with, contribute to and shape the development of digitalization in medicine, the medical education system needs to adapt for providing the necessary training in digital health.

In collaboration with the BRIDGE Center at the Centre for Chronic Disease Control, New Delhi, a day Pre – Conference CME that aims to fill the current knowledge gaps amongst public health professionals is organized. Esteemed resource faculty from the Center for Digital Health-PHFI New Delhi will enlighten on the latest developments in Digital health.

ABOUT THE CONFERENCE THEME

“Environment & Health - Equitize, Educate, Empower: A Step towards attaining SDGs.”

Ensuring healthy lives and promoting well-being at all ages is essential to holistic development. The environment is a major determinant of health, estimated to account for almost 20% of all deaths worldwide. A clean and healthy environment is required to achieve Sustainable Development Goals. WHO, in its flagship initiative of **“ONE HEALTH”**, addresses health threats in the animal-human-environment interface through a multi-sectoral approach and strives to counter the triple planetary crisis of climate change, nature, and biodiversity loss, and pollution and waste in order to truly transform societies and economies for everyone, everywhere. Clean air, a stable climate, adequate water, sanitation and hygiene, safe use of chemicals, protection from radiation, healthy and safe workplaces, sound agricultural practices, health-supportive cities, and built environments, and a preserved nature are all prerequisites for health for all.

The cardinal principle is to achieve the highest possible environmental quality for everyone. **Equally**, to **Educate** the managing behavior ecosystem for sustainable living and to **Empower** towards achieving a healthy environment for all.

Erudite resource faculty from premier institutes like **ICMR, NIOH, PHFI & UNICEF** will address topical issues for achieving a paradigm shift to resilient, green sustainable development.
