## Scientific Paper Writing and Research Integrity

'Publish or perish' is a popular phrase in the scientific community. Many researchers write protocols, collect data and analyse but fail to put it out in peer reviewed public domain. The roadblocks for this are many. This preconference CME aims to prepare participants in navigating some of these hurdles. It will have sessions that are dedicated to drafting the various sections of the manuscript, identifying and submitting to a journal and handling the peer-review. The resource persons will include experienced researchers and public health professionals who are capable of mentoring young researchers, to hone their skills of writing and make the entire process of publication an enjoyable and fruitful journey.

Conference 21<sup>st</sup> and 22<sup>nd</sup> October 2022

## Roadmap to Sustainable Development Goals

The Sustainable Development Goals (SDGs), were adopted by the United Nations in 2015 as a universal call to action to end poverty and protect the planet. The goal is to achieve peace and prosperity by the year 2030. The 17 SDGs are integrated and interconnected and are designed to end poverty, hunger, AIDS, and gender discrimination. The Goal-3 of the SDGs 'Good health and well-being' focuses primarily on the domain of health and now takes a centre stage post COVID-19 pandemic. This conference focuses on health related SDGs and aims to deliberate on the roadmap towards achieving these in the regional context. Let us all apply our energy to reach the intended milestones. Together we can do it!
